F. Comprehensive Material	4	3	2	1
G. Instructor's Response to Questions	4	3	2	1
H. How Would You Rate the Course Overall	4	3	2	1

2. What did you like most about the course?

The way we were given very explicit descriptions of the anatomy, the physiological components and applications of the code to potential medical records & billing statements.

3. What recommendations can you offer for quality improvement?

This class was so thorough, so well timed to allow for discovery & discussion. I cannot think of anything more I could ask for.

4. Additional comments are welcome.

I think it would be helpful to have refresher/updates periodically to solidify practical experience one gets when applying the lessons learned in class. I would recommend this class to anyone serious about billing & reimbursing medical services.

Table with 5 columns: Question, Very Good, Good, Avg, Below Avg. Rows A-H with handwritten '4' in the Very Good column.

2. What did you like most about the course?

The extra discussion on the codes - the detailed instruction & examples leads to better understanding and application

3. What recommendations can you offer for quality improvement?

Continue to keep updated in coding RPTIS & all other areas of the industry as possible

4. Additional comments are welcome.

This instructor very knowledgeable & demonstrates expertise in her field. and I learned many things to assist me in my knowledge of coding.
